

### Description

HUVC-131924 (yellow), HUVC-165726 (magenta) and HUVC-191528 (cyan) are ready to use concentrates for energy curing offset printing inks.

### Characteristics

- Transparent, pure pigments
- Process colours to meet the specification of ISO 2846-1 and/or ISO 12647-2
- Neutral grey balance in the entire tonal range
- Low tonal spread between the process colours

### Suggested Application

- For printing on paper and board
- Indirect food contact

### Typical Properties

Product	Colour	Colour Strength vs reference [%]	Fineness of grind* [NPIRI]	Pigmentation [%]
HUVC-131924	Yellow	95 - 105	4	19
HUVC-165726	Magenta	95 - 105	4	31
HUVC-191528	Cyan	95 - 105	4	31

\*determined with 50% concentrate and 50% oligomer

### Storage

The material should be stored in closed original packaging. Typical storage temperatures should be between 15 °C and 30 °C.

### Shelf Life

The product has a shelf life of at least 12 months from the date of manufacture.

### Safety

When handling this product, please work according to the advice and information given in the safety data sheet and observe protective and workplace hygiene measures adequate for handling chemicals.
